## Meet Souli

Hello there! I'm Soulaiman, but feel free to call me Souli. Currently 24 years old and live in the city called Eindhoven located in The Netherlands.

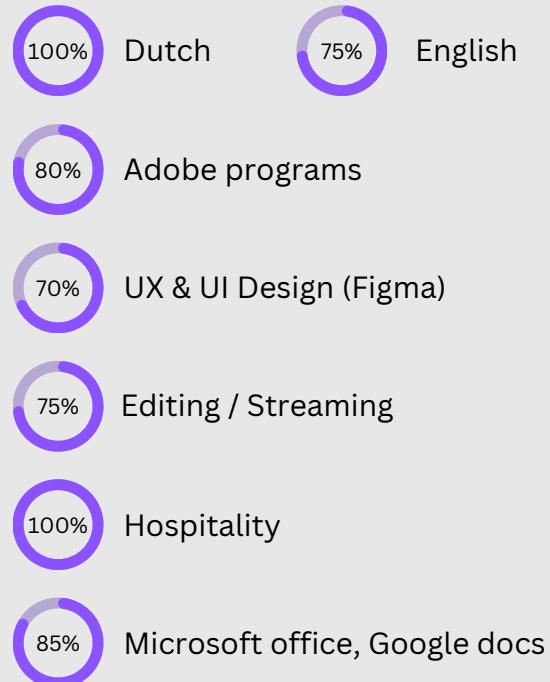

I am actively engaged in a variety of creative projects that span from sketching and video editing to the intricate realms of UX/UI design. My toolkit is expansive, including a suite of Adobe programs like Photoshop, InDesign, Illustrator, and After Effects, as well as Canva, Figma, and Procreate, all of which help me to actualize my creative concepts.

My designs are deeply influenced by Japanese culture and the dynamic otaku style, with each project featuring subtle nods to these inspirations. I am dedicated to my craft and committed to delivering excellence, pushing beyond 100% in every endeavor.
